

Tailoring relocation solutions

We have been striving for business excellence since the foundation of the company over 45 years ago. Constant quality and customer orientation has led to continuous growth and market leadership. With nine offices across Switzerland, we provide a wide range of relocation solutions. We support expatriates and international companies with pre-hire orientation tours, home search assistance, school search, immigration and settling-in services. Our services range from international removals to furniture rental. Behind our success are 150 experienced and talented employees who constantly aim to exceed customers' expectations.

To lead our IT-Team and contribute to the digital transformation of the company we are looking for a dynamic

IT Manager

In this role, you will ensure the operational support and continuous development of our IT infrastructure for all our offices across 6 countries. Together with your team and in cooperation with external partners, you will have a significant impact on the digital future of Packimpex.

What you will do:

- ❑ Managing and monitoring the IT day-to-day business and providing guidance to all stakeholders.
- ❑ Responsibility for the continuous development of our industry-specific internal applications
- ❑ Procuring of IT related third-party services, hardware and software
- ❑ Ensuring data integrity and integration across multiple systems and overall responsibility for our information security management with ISO27001 certification
- ❑ Developing and implementing a future-oriented IT strategy that will support our international expansion and our positioning as an attractive employer
- ❑ Participation in review and definition of a future-oriented and digitally focused company strategy and contribution to its implementation across multiple business lines
- ❑ Managing of IT and cross-divisional strategic projects

What we are looking for:

- ❑ A dynamic personality with an education in information technology or experience in a similar role
- ❑ Strong project management experience
- ❑ Ideally experience in leading a team or project teams
- ❑ Ability to use agile project management methods in infrastructure and software development projects

- ❑ Someone, who enjoys regular contact with internal and external stakeholders.
- ❑ Solution-oriented thinking, good organisational skills, resilience, adaptability and flexibility
- ❑ Fluent in English, other European languages would be an advantage

What we offer:

This is a role where you can strive for success, be challenged by a varied project portfolio and work closely with stakeholders across Europe. We have an open and friendly work culture, where we are constantly striving for innovation and digitalisation. Our employees are encouraged to bring new ideas to enhance existing service offerings or bring new services on board. All our new employees go through a structured induction and training program, followed by continuous personal development programs. An attractive remuneration package and fringe benefits are on offer, as well as the possibility to work from home, as we have a flexible working from home policy. This is an opportunity to join an international and multicultural team, and become part of a future-oriented business, who changes lives, reinvents Global Mobility, and exceeds customer expectations.

This role can be based in any of our office locations in Switzerland, with regular presence required at our Head-office in Thörishaus near Bern.
